Problem– Solution Fit

The Metro Ticket Generating System in ServiceNow addresses the challenges of manual metro ticket booking, including long queues, delayed ticket generation, fare calculation errors, and limited booking accessibility. The system automates the entire ticket booking process using Service Catalog, Flow Designer, QR Code generation, and email notifications, providing fast, secure, and convenient digital ticketing for passengers.

Purpose

- Automate the metro ticket booking process.
- Enable passengers to book tickets through a self- service portal.
- Calculate fares automatically based on journey details.
- Generate QR- code digital tickets instantly.
- Send booking confirmations and ticket details via email.
- Reduce manual work for metro staff.
- Improve passenger convenience and operational efficiency.
- Provide secure and reliable ticket management.
